Money

It can buy you a House,
But not a Home.

It can buy you a Bed,
But not Sleep.

It can buy you a Clock,
But not Time.

It can buy you a Book,
But not Knowledge.

It can buy you a Position,
But not Respect.

It can buy you Medicine,
But not Health.

It can buy you Blood,
But not Life.

It can buy you Sex,
But not Love.

A man is flying in a hot air balloon and realizes he is lost. He reduces height and spots a man down below. He lowers the balloon further and shouts: "Excuse me, can you tell me where I am?" The man below says: "Yes, you're in a hot air balloon, hovering 30 feet above this field."
"You must work in Information Technology," says the balloonist. "I do," replies the man. "How did you know?"
"Well," says the balloonist, "everything you have told me is technically correct, but it's no use to anyone."
The man below says "You must work in Management."
"I do," replies the balloonist, "But how did you know?"
"Well," says the man, "you don't know where you are, or where you're going, but you expect me to be able to help. You're in the same position you were before we met, but now it's my fault."

So you see, money isn't everything. The best things in life can't be bought, and often we destroy ourselves trying!

I tell you all this because I am your Friend, and as your Friend I want to take away your needless pain and suffering...

So send me all your money and I will suffer for you. A truer Friend than me you will never find.

Although Earth is currently home to up to 14 million different species of life, scientists estimate that over 99 percent of all species that ever lived on our planet are now extinct.

While the world ocean covers almost 70 percent of the planet surface, we have only explored about 5 percent of it so far.

Scientists estimate from 100 to 115 billion people have lived on Earth so far. The World's current population is 7.3 billion with China and India accounting for almost a third of it.

Although Earth appears immensely big to us, it can fit in the Sun 1.3 million times.

With almost 56,500 miles (91,000 kilometres) or around 15 percent of the world's more than 372,000 miles (almost 530,000 kilometres) of coastlines, Canada has the longest coastline of any country.

With a weight of over 180 tons, the blue whale is the largest existing animal and the heaviest animal that has ever lived on Earth. For example, Argentinosaurus, one of the largest and heaviest dinosaurs, is estimated to weigh "just" about 73 tons.

My wife asked me to buy ORGANIC vegetables from the market.

I went and looked around and couldn't find any. So I grabbed an old, tired looking employee and said, "These vegetables are for my wife. Have they been sprayed with any poisonous chemicals?"

"The produce guy looked at me and said, "No. You'll have to do that yourself."

How to Get Rid of Telemarketers

- If the company cleans rugs, respond: "Can you get out blood? Can you get out GOAT blood? How about HUMAN blood?"
- After the telemarketer gives their spiel, ask him/her to marry you. When they get all flustered, tell them that you could not just give you credit card number to a complete stranger.
- Tell the telemarketer that you work for the same company, they often can't sell to employees.
- Answer the phone. As soon as you realize it is a telemarketer, set the receiver down, shout or scream "Oh my Gosh!!!" and then hang up.
- Tell the telemarketer you are busy at the moment and ask them if they will give you their HOME phone number so you can call them back. When the telemarketer explains that they cannot give out their HOME number, you say "I guess you don't want anyone bothering you at home, right?" The telemarketer will agree and you say, "Now you know how I feel!" Hang up.
