### The Redneck and the Chainsaw

A red neck walks into a hardware store and asks for a chain saw that will cut 6 trees in one hour. The salesman recommends the top of the line model. The red neck is suitably impressed, and buys it.

The next day he brings it back and says, "This chainsaw is defective. It would only cut down one tree and it took all the gosh-darned day!"

The salesman takes the chain saw, starts it up to see what's wrong, and the red neck asks, "What's that noise?"

A mile on the ocean and a mile on land are not the same distance. On the ocean, a nautical mile measures 6,080 feet. A land or statute mile is 5,280 feet.

The area surrounding Hudson Bay has lower gravity than elsewhere on Earth. This is because during the last ice age the ice sheets pressed the Earth down, displacing a significant amount of mass. Because the Earth has less mass there, gravity is decreased.

When I was born, I was black. When I grew up, I was black. When I went in the sun, I stayed black. When I got cold, I was black. When I was scared, I was black. When I was sick, I was black. And when I die, I'll still be black. When you're black, you're black. But you white folks? When you're born, you're pink. When you grow up, you're white. When you go in the sun, you get red. When you're cold, you turn blue. When you're scared, you're yellow. When you get sick, you turn green. When you bruise, you're purple. And when you die, you turn grey. So why do you call us coloured?!

The primary reasons that talk is cheap are because there is too much supply and too little demand.

Becky prepared a pasta dish for a dinner party she was giving. In her haste, however, she forgot to refrigerate the spaghetti sauce, and it sat on the counter all day. She was worried about spoilage, but it was too late to cook up another batch. She called the local Poison Control Centre and voiced her concern. They advised Becky to boil the sauce again.

That night, the phone rang during dinner, and one of the guests volunteered to answer it. Becky's face dropped as the guest called out, "It's the Poison Control Centre. They want to know how the spaghetti sauce turned out."

A priest was giving the last rites. "Denounce the devil! Let him know what you think of his evil!" The dying man said nothing. The priest repeated his order. Still nothing. "Why do you refuse to denounce the devil and his evil?" The dying man replied, "Until I know where I'm going, I'm not going to antagonize anyone!"

The detective asked the secretary, "Why did your boss jump out the window?" She sobbed, "I don't know. He was so kind. Over the past few weeks he gave me a fur coat, a sports car, a diamond ring, and today, a new condo! And then he asked what it would cost to ravish me." "And what did you say?" "I said, 'Oh, I don't know; the other guys in the office just buy me dinner!'"

Bambi, a blonde in her fourth year as a UCLA freshman, sat in her USA government class. The professor asked Bambi if she knew what Roe vs. Wade was about.

Bambi pondered the question then finally said, "That was the decision George Washington had to make before he crossed the Delaware"

A couple of young boys were fishing at their special pond off the beaten track. All of a sudden, the Game Warden jumped out of the bushes. Immediately, one of the boys threw his rod down and started running through the woods, the Game Warden hot on his heels.

After about a half mile, the young man stopped and stooped over with his hands on his thighs to catch his breath, so the Game Warden finally caught up to him. "Let's see yer fishin' license, Boy!" the Warden gasped.

With that, the boy pulled out his wallet and gave the Game Warden a valid fishing license.

"Well, son," said the Game Warden, "you must be about as dumb as a box of rocks! You don't have to run from me if you have a valid license!"

"Yes, sir," replied the young guy, "but my friend back there, well, he don't have one."

*An elderly lady phoned her telephone company to report that her telephone failed to ring when her friends called -- and that on the few occasions when it did ring, her pet dog always moaned right before the phone rang. The telephone repairman proceeded to the scene, curious to see this psychic dog or senile elderly lady. He climbed a nearby telephone pole, hooked in his test set, and dialled the subscriber's house. The phone didn't ring right away, but then the dog moaned loudly and the telephone began to ring. Climbing down from the pole, the telephone repairman found.....*

1. The dog was tied to the telephone system's ground wire via a steel chain and collar.
2. The wire connection to the ground rod was loose.
3. The dog was receiving 90 volts of signalling current when the phone number was called.
4. After a couple of such jolts, the dog would start moaning and then urinate on himself and the ground.
5. The wet ground would complete the circuit, thus causing the phone to ring.

.....Which goes to show that some problems CAN be fixed by pissing and moaning

#### How salty is the ocean?

The salinity of ocean water is approximately 3.5%, which equates to one square mile of sea water containing 166 million tons of salt. If you could manage to extract all the salt from all the oceans on Earth, you'd have a layer of salt that would cover every continent, 500 feet deep.
